Coating & Finishes

Fence Galvanized – Best Performance

- Extra thick zinc coated nails specially made for Wood Fence installation.
- Superior corrosion resistant performance compared to Hot Dip Galvanized.
- Highly recommended for Fence Specialists.

Hot Dip Galvanized – Better Performance

- Hot dip zinc coated nails commonly used where corrosion resistance is required.
- Not recommended for treated wood.

Electro Galvanized – Good Performance

- Nails coated by electroplating process.
- Low corrosion resistance.
- Not recommended for treated wood.

Not all TOOLS ACCEPT OUR NAILS. PLEASE CHECK YOUR TOOL MANUFACTURER'S OWNERS MANUAL.
